

# Michael Cannon

Senior Program Director

**SchoolWorks, Inc.**

Recently retired as the Executive Director of Facilities & Planning, Natomas Unified School District, Mr. Cannon currently is the Senior Program Director for SchoolWorks, concentrating on Facility Master Plans for client districts. His areas of expertise include facility site assessment & usage; planning & use options, demographic utilization and funding. Mr. Cannon has more than twenty years of experience in public & educational program planning, project funding and project management of educational facilities, from kindergarten through college, and has managed the planning and construction of more than three million square feet of educational facilities. Mr. Cannon previously had his own successful consulting firm, and also was with Kitchell Construction Management, the California State University System and the State of California. He brings practical experience with California public school planning to the process, and a thorough grounding in the public facilities process.
